DELEGATION ASKS TO HAVE TOP ON TANK

Request Comes to Council From
Civic Improvement League—
Notice re Certificate for Voting—Bare Dependents When
Names Left Off.

The regular semi-monthly meeting of the town council was held last Monday night with the mayor in the chair and the following councillors present: Messrs. Lavelle, Keats, Learswood and Oakland.

The minutes of the previous meeting were read and approved. A communication from the Minister of Municipalities was read informing the council that the wife, son or daughter, or in case of a female, the rate payer, but the husband, who did not have their names placed on the voters' list could not vote. It was decided to have a certificate sent to the voters' list committee to certify that the names of the wife, son or daughter, or in case of a female, the rate payer, but the husband, who did not have their names placed on the voters' list could not vote.

An application for the position of street cleaner at the town hall was received from Miss Jean Gray and it was decided to give her a month's trial and if her work proved satisfactory, to engage her at a salary of \$75.00 per month.

Several months ago the secretary-treasurer made application for an increase in salary but the matter was laid over at the time. The application again came up at this meeting and on motion of Councillor Learswood and Lavelle he was granted an increase of \$15.00 per month.

On motion duly made and seconded Council resolved to grant an increase of \$15.00 per month for the term ending Sept. 30th.

A committee consisting of Mrs. Walter, Mrs. Carr and Mrs. Finney, representing the Civic Improvement League, waited on the council and asked that a roof be placed on the water tank, also that a roof be placed in the park and that the League be allowed to place lavatories in the park. The committee was informed that the matter of a roof on the water tank would receive consideration, and that a water tank would be placed in the park. The council also gave the Civic Improvement League permission to place lavatories in the park.

Town Solicitor Reist brought to the attention of the council a proposition from the Ross Clay Products Company, in settlement of the taxes on the Redcliff Clay Products plant, that the above company has taken over. The Ross company offered to pay \$575.00 in cash and \$5,000.00 in bonds for the term ending Sept. 30th. The council also gave the Ross company permission to place lavatories in the park.

The council also gave the Ross company permission to place lavatories in the park. The council also gave the Ross company permission to place lavatories in the park.

The council also gave the Ross company permission to place lavatories in the park. The council also gave the Ross company permission to place lavatories in the park.

Canadian Wheat Board Has Been Appointed

The Canadian wheat board which is to have control of the purchase and marketing of the Canadian wheat crop of the Dominion, has been appointed, and the members are as follows: James Stewart, Winnipeg, chairman; W. J. Matheson, Winnipeg; H. W. Wood, Carleton Place; H. B. Black, Montreal; Norman Melville Patterson, Fort William; Wm. L. Best, Ottawa; Frank O. Fowler, Winnipeg; C. B. Waite, Toronto; Wm. Henry McWilliams, Winnipeg; Joseph G. Quint, Montreal; Col. John A. Fraser, Bedford, Ontario; Frederick Wm. Riddell, Regina.

Industrial Congress Sees Redcliff Industries

The town containing a lively appearance last Monday afternoon at the industrial congress, passed through on their tour of inspection of the different industries in this town. In the party were a number of representatives of leading manufacturing establishments from all over Canada and the United States, besides representatives of railroads and financial institutions from both countries.

Although by some misarrangement of plans, or the limited time at their disposal, all the plants were not visited, but enough was seen to convince the distinguished visitors of the advantages of our natural gas in building up an industrial center at this point. They expressed great surprise at the substantial character of our industries and were extravagant in their predictions of the future prospects and possibilities for development along industrial lines.

More Information Re Fall Rice Seed

The only further word we have received concerning the securing of fall rice seed is contained in a circular which reached this office today. The circular says:

The department is looking after the unorganized areas where the Municipal Government is not exercising action on the part of municipalities in the same way as was done last spring. A maximum of twenty-five bushels of seed can be secured. Those who can afford to purchase this seed can do business directly with the Dominion Seed Branch at Calgary. Without the assistance of the Department of Agriculture or municipalities. Others who wish to secure their seed through the Seed Branch at Edmonton. The Department of Agriculture takes seed which reaches the department by a line on the note. The price of the seed is \$2.50 per bushel. The furnishing of seed is subject to the holding out of the supply at the Dominion Seed Branch at Calgary.

Mennonites Have No Educational Privileges

Mennonites in the province of Manitoba have no educational privileges extended to all citizens, according to a judgment handed down by the Manitoba court of appeal. The court held that Mennonites have no "before claims," to educate their children as they are placed, are based on the government given a 1871 which the court declares are beyond the power of corporations to give the Mennonites.

The court's refusal to allow for permission to carry on an appeal from this decision over the supreme court of Canada to the privy council, holding that the matter was so clear to the minds of the members of the court that they did not feel that they should interfere with the usual course of appeal.

The matter came before the court by way of appeal from a conviction of John Hildebrand and Dedrick Derksen by Magistrate Milne at Morden.

By the judgment of the court decision, to the Dominion government intended to give the Mennonites, as they claim, the right to their own schools, that even if this had been done, the Dominion government would have no power, as the province of Manitoba has the exclusive right to deal with matters pertaining to education. It is therefore held that the government of Manitoba had the right to pass the school attendance act. It is further decided by the judgment that the act is binding on the Mennonites and that they must attend schools in accordance with the terms of the law.

U.S. Corn Crop Shows Decrease

The United States Corn crop showed a decrease of 27,000,000 bushels as a result of weather and other conditions during July. The United States Department of Agriculture in its August forecast announced the crop would be 788,375,000 bushels on an average for the year. This is only one per cent less than the 1918 crop, which was 791,375,000 bushels. The 1918 crop was 791,375,000 bushels. The 1919 crop is 788,375,000 bushels. The 1920 crop is 788,375,000 bushels. The 1921 crop is 788,375,000 bushels. The 1922 crop is 788,375,000 bushels. The 1923 crop is 788,375,000 bushels. The 1924 crop is 788,375,000 bushels. The 1925 crop is 788,375,000 bushels. The 1926 crop is 788,375,000 bushels. The 1927 crop is 788,375,000 bushels. The 1928 crop is 788,375,000 bushels. The 1929 crop is 788,375,000 bushels. The 1930 crop is 788,375,000 bushels. The 1931 crop is 788,375,000 bushels. The 1932 crop is 788,375,000 bushels. The 1933 crop is 788,375,000 bushels. The 1934 crop is 788,375,000 bushels. The 1935 crop is 788,375,000 bushels. The 1936 crop is 788,375,000 bushels. The 1937 crop is 788,375,000 bushels. The 1938 crop is 788,375,000 bushels. The 1939 crop is 788,375,000 bushels. The 1940 crop is 788,375,000 bushels. The 1941 crop is 788,375,000 bushels. The 1942 crop is 788,375,000 bushels. The 1943 crop is 788,375,000 bushels. The 1944 crop is 788,375,000 bushels. The 1945 crop is 788,375,000 bushels. The 1946 crop is 788,375,000 bushels. The 1947 crop is 788,375,000 bushels. The 1948 crop is 788,375,000 bushels. The 1949 crop is 788,375,000 bushels. The 1950 crop is 788,375,000 bushels. The 1951 crop is 788,375,000 bushels. The 1952 crop is 788,375,000 bushels. The 1953 crop is 788,375,000 bushels. The 1954 crop is 788,375,000 bushels. The 1955 crop is 788,375,000 bushels. The 1956 crop is 788,375,000 bushels. The 1957 crop is 788,375,000 bushels. The 1958 crop is 788,375,000 bushels. The 1959 crop is 788,375,000 bushels. The 1960 crop is 788,375,000 bushels. The 1961 crop is 788,375,000 bushels. The 1962 crop is 788,375,000 bushels. The 1963 crop is 788,375,000 bushels. The 1964 crop is 788,375,000 bushels. The 1965 crop is 788,375,000 bushels. The 1966 crop is 788,375,000 bushels. The 1967 crop is 788,375,000 bushels. The 1968 crop is 788,375,000 bushels. The 1969 crop is 788,375,000 bushels. The 1970 crop is 788,375,000 bushels. The 1971 crop is 788,375,000 bushels. The 1972 crop is 788,375,000 bushels. The 1973 crop is 788,375,000 bushels. The 1974 crop is 788,375,000 bushels. The 1975 crop is 788,375,000 bushels. The 1976 crop is 788,375,000 bushels. The 1977 crop is 788,375,000 bushels. The 1978 crop is 788,375,000 bushels. The 1979 crop is 788,375,000 bushels. The 1980 crop is 788,375,000 bushels. The 1981 crop is 788,375,000 bushels. The 1982 crop is 788,375,000 bushels. The 1983 crop is 788,375,000 bushels. The 1984 crop is 788,375,000 bushels. The 1985 crop is 788,375,000 bushels. The 1986 crop is 788,375,000 bushels. The 1987 crop is 788,375,000 bushels. The 1988 crop is 788,375,000 bushels. The 1989 crop is 788,375,000 bushels. The 1990 crop is 788,375,000 bushels. The 1991 crop is 788,375,000 bushels. The 1992 crop is 788,375,000 bushels. The 1993 crop is 788,375,000 bushels. The 1994 crop is 788,375,000 bushels. The 1995 crop is 788,375,000 bushels. The 1996 crop is 788,375,000 bushels. The 1997 crop is 788,375,000 bushels. The 1998 crop is 788,375,000 bushels. The 1999 crop is 788,375,000 bushels. The 2000 crop is 788,375,000 bushels. The 2001 crop is 788,375,000 bushels. The 2002 crop is 788,375,000 bushels. The 2003 crop is 788,375,000 bushels. The 2004 crop is 788,375,000 bushels. The 2005 crop is 788,375,000 bushels. The 2006 crop is 788,375,000 bushels. The 2007 crop is 788,375,000 bushels. The 2008 crop is 788,375,000 bushels. The 2009 crop is 788,375,000 bushels. The 2010 crop is 788,375,000 bushels. The 2011 crop is 788,375,000 bushels. The 2012 crop is 788,375,000 bushels. The 2013 crop is 788,375,000 bushels. The 2014 crop is 788,375,000 bushels. The 2015 crop is 788,375,000 bushels. The 2016 crop is 788,375,000 bushels. The 2017 crop is 788,375,000 bushels. The 2018 crop is 788,375,000 bushels. The 2019 crop is 788,375,000 bushels. The 2020 crop is 788,375,000 bushels. The 2021 crop is 788,375,000 bushels. The 2022 crop is 788,375,000 bushels. The 2023 crop is 788,375,000 bushels. The 2024 crop is 788,375,000 bushels. The 2025 crop is 788,375,000 bushels. The 2026 crop is 788,375,000 bushels. The 2027 crop is 788,375,000 bushels. The 2028 crop is 788,375,000 bushels. The 2029 crop is 788,375,000 bushels. The 2030 crop is 788,375,000 bushels. The 2031 crop is 788,375,000 bushels. The 2032 crop is 788,375,000 bushels. The 2033 crop is 788,375,000 bushels. The 2034 crop is 788,375,000 bushels. The 2035 crop is 788,375,000 bushels. The 2036 crop is 788,375,000 bushels. The 2037 crop is 788,375,000 bushels. The 2038 crop is 788,375,000 bushels. The 2039 crop is 788,375,000 bushels. The 2040 crop is 788,375,000 bushels. The 2041 crop is 788,375,000 bushels. The 2042 crop is 788,375,000 bushels. The 2043 crop is 788,375,000 bushels. The 2044 crop is 788,375,000 bushels. The 2045 crop is 788,375,000 bushels. The 2046 crop is 788,375,000 bushels. The 2047 crop is 788,375,000 bushels. The 2048 crop is 788,375,000 bushels. The 2049 crop is 788,375,000 bushels. The 2050 crop is 788,375,000 bushels. The 2051 crop is 788,375,000 bushels. The 2052 crop is 788,375,000 bushels. The 2053 crop is 788,375,000 bushels. The 2054 crop is 788,375,000 bushels. The 2055 crop is 788,375,000 bushels. The 2056 crop is 788,375,000 bushels. The 2057 crop is 788,375,000 bushels. The 2058 crop is 788,375,000 bushels. The 2059 crop is 788,375,000 bushels. The 2060 crop is 788,375,000 bushels. The 2061 crop is 788,375,000 bushels. The 2062 crop is 788,375,000 bushels. The 2063 crop is 788,375,000 bushels. The 2064 crop is 788,375,000 bushels. The 2065 crop is 788,375,000 bushels. The 2066 crop is 788,375,000 bushels. The 2067 crop is 788,375,000 bushels. The 2068 crop is 788,375,000 bushels. The 2069 crop is 788,375,000 bushels. The 2070 crop is 788,375,000 bushels. The 2071 crop is 788,375,000 bushels. The 2072 crop is 788,375,000 bushels. The 2073 crop is 788,375,000 bushels. The 2074 crop is 788,375,000 bushels. The 2075 crop is 788,375,000 bushels. The 2076 crop is 788,375,000 bushels. The 2077 crop is 788,375,000 bushels. The 2078 crop is 788,375,000 bushels. The 2079 crop is 788,375,000 bushels. The 2080 crop is 788,375,000 bushels. CLEAN IT UP

Now that a movement is on foot to have the top out of the water tank it would be a good idea if the council would have the tank thoroughly cleaned up, inside before the top is put on.

As this top has been of use for a considerable time it is only natural that with our high winds and numerous birds, there must be a small amount of sediment accumulated in and around the stand pipe. If this be the case then it is also natural that with the closing in of the tank, fermentation or decay will follow and the result may be serious.

This has happened in other places where exactly the same conditions existed. On a particular to which our attention was drawn some time ago was in Benson, Minnesota. In that town an epidemic broke out and an investigation brought out the fact that the epidemic was caused from impurities which found their way into a water tank from which the top had blown off.

Redcliff has been exceedingly fortunate in escaping any such calamity so far but it is no reason why we should continue to play with the elements.

INTERESTING BULLETIN

The western prairies constitute one of the greatest agricultural areas in the world and have been blessed with a favorable climate and a fertility of soil nowhere surpassed. But two great things are lacking which are closely inter-related. They are a natural growth of trees and an ample supply of surface water. Of course a system of irrigation would solve the problem but since this does not appear to be yet in sight at least so far the Department of Interior has prepared a bulletin for distribution among farmers in what may be described as the semi-arid districts of Saskatchewan and Alberta, with a view to aiding them in procuring a sufficient domestic water supply to allow of properly carrying on their industry of agriculture.

The circular deals with the best method for building dams, etc., for conserving water and also gives an outline of the material to use and the possible cost of same. This circular may be had on application to the Commissioner of Irrigation, Department of Interior, Calgary, and if there is anything in the Bulletin which is not thoroughly understood in the working out of the plan this department invites inquiries and promises every assistance.

Wives, daughters and sons of property owners are reminded that they have only 16 more days to get put on the voters' list. When it comes to the next municipal election it will be a case of "if my name is written there" if your name is not there you cannot have a vote and it will be your own fault.

In this issue we publish a circular sent out by the Live Stock branch of the United Grain Growers which deals with the marketing of cattle. We also reprint a circular on how to get free rate on hay and stock. We would advise all interested to read both these articles carefully.

EDUCATION.

In his recent theoretical address at a big meeting for teachers, the president of the college presented admirable the essentials in a really effective education. Here, in a few words, are the points which he emphasized, and which all parents, teachers, and school authorities will do well to ponder:

The truly educated man is a man who has been taught how to conserve his physical well-being and appreciate the importance of this to himself and to the state.

He is a man who has been given a clear understanding of the achievements of the race, as recorded in literature and in history.

He is a man who has been fitted to earn his living.

He is a man who has been trained in self-control, and in sound moral and religious principles.

Finally, the truly educated man is a man who has been inspired to ideals of social service.

It will be noticed that he by no means regards excellence in "book knowledge" as the supreme standard of education.

Unfortunately, there still are many people who make the mistake he so carefully avoids. They think that only those should be called educated whose minds team with a large accumulation of "facts." To people of this way of thinking the college professor is the most educated man. Assuredly he is the most "learned," but he is really educated only in proportion as he attains the other standards set forth above.

Neither the college professor nor any other man, deserve to be regarded as educated he does not know how to conserve his health, if he is self-centered, lacking in self-control, deficient in human sympathy, or devoid of good moral and religious ideals.

The moment a man ceases to strive to increase his ability to do good work and to render service to society that moment he begins to lose ground and to stagnate.

A man's education, then, is never completed. But the earlier it is begun, and the more soundly it is carried on, the nearer completion it will come.

WHERE TO START.

One of the visiting manufacturers to the Industrial Congress pointed out that with a considerable increase in the agricultural population in Alberta, and Alberta, with a view to aiding them in procuring a sufficient domestic water supply to allow of properly carrying on their industry of agriculture.

The circular deals with the best method for building dams, etc., for conserving water and also gives an outline of the material to use and the possible cost of same. This circular may be had on application to the Commissioner of Irrigation, Department of Interior, Calgary, and if there is anything in the Bulletin which is not thoroughly understood in the working out of the plan this department invites inquiries and promises every assistance.

The same condition applies to Hon. S. F. Tolmie and Sir Henry Dwyer, the newly selected minister of agriculture and finance respectively.

The selection of Mr. King as leader came as considerable of a surprise to the west where Hon. W. S. Fielding was candidate for the office, is still remembered as the father of the reciprocity agreement of 1911.

Although his leader is a comparatively young man, he has considerable ability and experience, but it is not the best recommendation he could have to have it said that he owes his election to the position to the fact that he opposed conscription.

In the distribution of King George's birthday honors, Sir Edward Guinness, head of the most important brewing firm of Britain, was created an earl. Well, probably that's fair. Old Guinness' has made duels and earls out of thousands—for a few hours at least.

Strike Was Cause
Of Big Food Waste

During the strike in Winnipeg, approximately 187 tons of foodstuffs found their way to the nuisance ground.

This was one of the interesting statements contained in a report of the chief health inspector to the finance committee of the city council.

The report also showed that from June 26 to July 31 this year, 60 tons, 1,400 lbs. have been destroyed at the city's expense, and 10,000 lbs. but 20 tons, 1,550 lbs. during the period between May 15 and June 31 1918.

Serbia Now a
Nation of Orphans

Belgrade, Aug. 15.—War has made Serbia a country of orphans. There are 200,000 persons who lost both parents and 300,000 more who lost one parent, according to statistics compiled by Red Cross workers from records in the Serbian educational department. Some towns of 10,000 inhabitants have lost 2,000 and 3,000 orphans.

Soldiers Settling
On Western Farms

Three thousand seven hundred and sixty-eight soldier grant entries have been made on lands in the western portion of the Dominion under the supervision of the federal government. By province: Manitoba, 868; Saskatchewan, 1,124; Alberta, 1,702; British Columbia, 64. There has been a considerable increase in the settlement on Dominion lands by soldiers in the past four months. In April there were 546 entries, in May 463, in June 818, and in July 941.

Aid Soldiers to
Become Teachers

The deputy minister, department of education, has announced that the department will do all in its power to assist returned soldiers who have been honorably discharged, and the sons and daughters of deceased and disabled soldiers who have seen active service, to get them through the necessary schools so that they may qualify as school teachers.

According to information received by the officials of the local branch of the Great War Veterans' association, the department will loan the amount required for entrance and a sum sufficient to put them through the classes.

Returned soldiers and soldiers' dependents who wish to apply for the benefit are asked to apply in writing or person to the office of the deputy minister not later than August 30.

ARCHDUKE SAYS NO MONARCHY FOR HUNGARY.

Berlin, Aug. 12.—Archduke Joseph, head of the new Hungarian government, has issued a proclamation in which he affirms that there will be no return to the monarchical system. Previously the officers and students had proclaimed the archduke king and it was to effect that he reiterated his loyalty to the republic.

BOARD OF COMMERCE OFFICIALLY APPOINTED.

The Canadian Board of Commerce has been officially constituted, with J. A. A. Robson, of Winnipeg, as chairman, and W. F. O'Connor, C.C., former chief of living commission, as second member, and these two gentlemen have had a conference with the government and have already started work.

SAYS PROFITEER IS ASHAMED OF PROFITS.

In charge of the bill on profiteering for the government, and that a manufacturer in northern England had told him he was "ashamed of the profits he was making." He added that shoes which sold at wholesale at from 15 to 25 shillings retailed at 50 and 60 shillings.

Interesting Articles
Regarding Livestock

The Livestock branch of the United Grain Growers has sent out the following circular which gives advice to farmers regarding the disposal of their stock. At such a time as this, when certain sections of the Province are short of feed and when a considerable amount of our livestock is to be found in a market, it is wise for us to see that we are getting all our stock well placed. Instances have come to the United Grain Growers' attention where farmers, discouraged and lacking information has been, scattered widely in certain districts. The purpose seemed to be to get the farmer in a panic so that he would sell his live stock for a ridiculously low figure. For instance, farmers have informed us that the current report in their district was to the effect that the Calgary Livestock market had gone all to pieces, and that farmers could not even get their freight back on cars of stock shipped to that point.

These malicious statements are absolutely false, for the Calgary market, up to date, (August 13), has absorbed everything sent to it at prices that are, to say the least, fair. This is particularly true of all grades of good quality cattle and sheep. The yearlings, 425 to 540.00; two year olds, 540.00 to 660.00 and three year olds 660.00 and up to \$75.00.

The Government and Railroad arrangement to permit each man to ship free of charge two car loads of cattle to feed, or seven cars of feed to the cattle will help to steady conditions. But we would strongly advise farmers, before shipping their stock at ridiculously low figures to call up the United Grain Growers' Livestock branch, Calgary, or some other reputable commission firm, for market reports before they are stampeded into a very foolish sacrifice of their stock.

Let us, however, impress upon all those living inside the range area that they secure a certificate from the Dominion Government Veterinarian or from a range rider that their stock is free from mange, and that it has not been in contact with mangy cattle. Cattle accompanied by a certificate of this kind can be sold to better advantage in the Calgary yards. If shippers fail to secure this certificate, it may mean that their cattle may be held in the yards for a considerable time. It is imperative that all shippers from within the range area remember this call, and send the clean bill of health in with the bill of lading. This of course applies to stocker cattle and not to butcher stuff sent in for immediate slaughter.

It is a simple matter to get the certificate and send same with the cattle, than if it turns out that some of the animals are not quite good enough for slaughter, they can be disposed of more easily for stocker purposes. Farmers should also take all co-operative shipments of cattle are clearly "hair clipped" or marked for ownership. That is, have all the cattle belonging to one owner hair clipped on the right hip with a roman numeral. Cattle thus marked are easily identified in the yards.

G.W.V.A. is Ready
The Food Profiteers

A resolution advocating measures to immediately get at the root of the question of profiteering in Winnipeg and Manitoba, will be introduced at a meeting of the executive council of the Army and Navy Veterans' Association. The resolution will suggest the appointment of a vigilance committee, similar to the Citizens' committee of 1909, whose duty it will be to get on the trail of profiteers.

Officers of the Great War Veterans' Association and the Dominion give the Dominion government hearty support in measures similar to those proposed by Great Britain are enacted in this country.

This question will also be brought up by the Imperial Veterans' Association at their meeting Thursday night.

Advance in Shoe
Prices Unnecessary

The price of hides for the manufacture of boots and shoes is falling in Canada since the government placed an embargo on exports of hides, skins and leather, at the advice of the chief of living commission. The embargo was announced on August 4. By August 6, country hides had fallen five cents a pound, an advance received since the price on hides dropped in the Montreal market yesterday.

"The decline in the price of raw material following the government's action, should, if it continues," says the chief of living commission, "obviate the necessity of an embargo on boots and shoes, and if continued for enough, should cause an actual decline in these prices."

NEW TIME TABLE FOR C. P. R. TRAINS

The following is the new schedule of the C. P. R. which goes into effect on June 1st, giving a list of the time trains pass through here after that date:

GOING WEST.

No. 9 leaves Redcliff 1:30 p. m.

No. 15 leaves Redcliff 10:50 p. m.

GOING EAST.

No. 4 leaves Redcliff 8:30 p. m.

No. 14 (flag) leaves Redcliff 4:40 a. m.

This is railroad time, which means that anyone wishing to take a train should be at the depot one hour earlier.

ITEMS OF LOCAL INTEREST

Children's gingham school dresses. Gibson & Tupper.

Miss Clara Gibson is visiting friends in Medicine Hat week.

Call and see Gibson & Tupper's new line of Voile and Silk Waists.

Capt. Hay completed a flight in his airplane from Vancouver to Calgary, over the Rockies.

W. Barrie left yesterday noon for Calgary where he will spend the week end.

Mrs. (Dorothy) Shearer and her daughter, Miss Jean, left last evening for Sherbrook, Que., where they will visit friends for the summer.

There will be no Sunday School in the Presbyterian Church for the next two Sundays. The school will open as usual on the 1st.

Quite a number from here attended the banquet in Medicine Hat last Monday evening in honor of the visitors to the Industrial Congress.

K. Long, near Purple Springs, clipped 1,700 pounds of wool from 170 sheep and disposed of it at the high figure of 60c per pound.

Surveys are about to be proceeded with work that will result in about half a million more acres being brought under irrigation in Southern Alberta.

Dr. Shearer is at present holidaying in the mountains. On account of his absence, there will be no service in the Presbyterian Church next Sunday morning or evening.

The new company which has taken over the Clay Products plant here now has everything in shape for starting operations and they expect to be making brick the end of this week.

The annual picnic of St. Andrew's Sunday school was held last Thursday afternoon on the church grounds. A pleasant afternoon of games was spent after which the children were treated to a motor ride around town.

Mrs. T. Irwin and children, of the Bowell district, who have been seriously ill for the past week, are now greatly improved. They had been suffering from poisoning which bit is supposed they contracted from drinking milk taken from a cow which was bitten by a rattlesnake.

Harvesting is now general in this district although the crops are very light on the whole, the liberal showers of a few weeks ago have made a vast improvement. Grain which in the middle of July was considered almost useless is now being cut and it will make good feed. Other grain which it was not intended to cut for seed has now improved so as to make this worth while and now almost all will get back considerably more than they had. On the whole the outlook now is much more encouraging than it was a month ago.

Sunday School, 12:15 p. m.
Evening Prayer, 7:30 p. m.
Vespers at Terra Nova, 3 p. m.

No Minimum Price For Wheat Crop

There seems to be considerable misapprehension in regard to the plan adopted by the government for the marketing of the surplus wheat crop of 1919. "No minimum price has been fixed, neither has any maximum price been established," said Sir George Foster, explaining the plan which, by the way, was approved by Hon. T. A. Cresser as a representative of the council of agriculture. The sale of the wheat crop for 1919 will be made by the Canada wheat board, and the price will be determined by the world market.

"The government has arranged that the seller of the wheat—that is, the farmer—shall receive an initial payment at the time he makes sale. The amount of this initial payment has not yet been decided upon. It is to be recommended by the wheat board, on which the producers are fully represented. This board will decide, in the light of market conditions what is the highest advance payment that safely can be made.

RICH GOLD FINE IN QUEBEC PROVINCE.

Rich gold ore has been found in the new Abitibi region in Quebec province, close to the Ontario border line. Prospecting parties, who have just sold out their holdings to a British syndicate, whose head office is located in England. The sale price was \$850,000.

Britain's Financial

Condition Precarious

Members of the British house of commons at all parties were grave-faced, and then Lloyd George, told them in plain English that this country was faced with ruin unless the expenditure was ruthlessly cut down, and unless strikes give place to industrial co-operation in greater production for export.

Without opposition or debate, the U. S. Senate adopted a resolution authorizing the foreign relations committee to make a sweeping investigation of outrages against United States citizens and property of Americans in Mexico, and "to report what, if any, action should be taken to prevent such outrages."

The resolution gives the committee broad powers to go into the killing of Americans, the destruction and confiscation of property and the collection of claims since the retirement of President Diaz. A report of finding, with any recommendations thought necessary, is to be laid before the senate.

Farmers Experience With Hide and Shoes

Far non-expertise, in discussing all the formal statements and statistical the question of the price of shoes, than table, is the experience of the farmer who has hides to sell and shoes to buy. This unfortunate man is so situated that he can observe the price question at both extremes. He knows how much he gets for the hides, and how much he has to pay for shoes.

An Illinois farmer told his tale of woe at a state agricultural meeting. He got \$5.00 for two hides and paid \$12.50 for two pairs of children's shoes. Reach child, he figures it, is wearing the equivalent of an entire hide on each foot.

A Kansas farmer report that he went to town with one hide. By adding \$2.50 for his own cash to the proceeds of the hide sale he was able to pay for a pair of shoes of indifferent quality.

U.S. Will Investigate Outrages in Mexico

Without opposition or debate, the United States senate adopted a resolution authorizing the foreign relations committee to make a sweeping investigation of outrages against United States citizens and property of Americans in Mexico, and "to report what, if any, action should be taken to prevent such outrages."

The resolution gives the committee broad powers to go into the killing of Americans, the destruction and confiscation of property and the collection of claims since the retirement of President Diaz. A report of finding, with any recommendations thought necessary, is to be laid before the senate.

Drumheller Vets Give O.B.U. Marching Orders

Returned veterans, working in Drumheller coal mines were called snobs by striking miners who have joined O.B.U. The soldiers resented the aspersion and conducted the O.B.U. leaders out of town, herding them to the four point of the compass and warning them to keep on walking away from the coal town. Perhaps that is as good a way as any to deal with the professional disturbers of peace and prosperity.

President Wilson asked congress for authority to use the secret service in running down profiteers and food hoarders, and for an appropriation of \$175,000 for the work.
